Can we please have an SLO that touches on building fitness for lifetime well being and health. Also if we are going to only write one level of this class the PLO states and advanced level of knowledge of sport. Can we instead change SLO to reflect that advanced skills will also be taught?

Include expected SLO performance. Standard is usually 70, but that is up to the department.

So building off of Kim's comments, maybe something like: Get rid of "Attain a level of physical well being through exercise" and replace it with: Apply principles of exercise and fitness to lifetime health and well being. Add the SLO: Use basic and advanced skills such as screening, dribbling, shooting, and passing in the game of basketball.

Instead of "Learn and understand the rules and regulations governing basketball", consider: Understand the rules and regulations governing basketball.

SLO 1 needs a period at the end of the sentence.

SLO 1 still needs a period.
