 Subject: Canvas Data
 Date: Thursday, March 09, 2017 1:16:00 PM

Hi Corey,

Do you want to share this data with the Faculty Inquiry Group?

Spring 2017 Data

- Public has the least headcounts in online courses.
- Social Science, Child Development and Business have the most headcounts and sections in online courses.
- Science and English dropped more students before Census Day.
- Library, Child Development, Allied Health and Public Service dropped less students before Census Day.
- Kinesiology seems to be adding enrollments after Census Day.
- Social Science has the highest retention after Census Day.
- Science has the lowest retention after Census Day.
- Kinesiology's attendance and grade access per week is the least.
- Science's attendance and grade access per week is the highest.
- Child Development has the highest discussion post per week.
- Science has the highest assignment and quizzes per week.
- Kinesiology and Math have the lowest discussion post, assignment and quizzes per week.

Math department uses Business which may explain where there is a low amount of discussion post, assignment and quizzes, but it doesn't explain why Kinesiology would have such low amount of click per week on discussion post, assignment and quizzes. Although Business faculty uses a lot of Cengage and SAMS, they seem to be more successful at combining SAMS and Cengage contents with Canvas discussion post, assignments and quizzes.

Spring 2016 Data Relating to Retention, Section # and Student Success

- Child Development and Science's retention improved by 5% and 4% comparatively to spring 2016 and respectively.
- Retention for Kinesiology went down by 17%.
- Counseling has the highest success rate for spring 2016.
- Math has the lowest success rate for spring 2016.

Rebecca
