Math and Writing Labs

The Math and Writing Labs provide an opportunity for students to work with math and writing faculty on a drop-in basis. When attending the labs, please bring your assignments, homework, and questions. The Math and Writing Labs are available to all students, not only math and writing students. The labs are great places to ask questions, work with other students who may be studying the same subject, and have the opportunity to work with your favorite professors.

Math and Writing Labs

Could you use some extra support?

The math and writing labs are places where you'll find math and English faculty who are there to help you to learn your course material. Spend time studying in a lab, ask questions as you have them, and meet other students who are working on similar assignments. The labs are places where students go to grow. You don't need an appointment, just check in and start working.
