To: Board of Trustees  
 Subject: New Program for the 2016-17 Academic Year Catalog  
 Board Meeting: June 9, 2016

The following course outlines were reviewed and vetted through the College process and are recommended by the College-wide Curriculum Committee, Academic Senate, Chief Instructional Officer, and College President:

**Cerro Coso**

Curriculum Mtg. Date	Program Title	Program Description	Reason for Change
<b>CC New Program</b>			
04/15/2016	Cyber Security Technician	<p>CYBER SECURITY TECHNOLOGY Certificate is designed for students pursuing professional employment in information security for business. This certificate program provides students with skills to enter the job market as information assurance technicians, information security analysts, network security professionals and cyber security technicians. Designed for both full-time and part-time students, this certificate is appropriate to both those currently employed and those seeking to enter the field.</p> <p>Complete each course to be applied toward the certificate with a "C" or better. Complete a minimum of 12 units in residence at Cerro Coso Community College.</p>	<p>Cyber Security professionals are in critical demand to protect our individual security, business security and international security. The Naval Air Warfare Center at China Lake and our local IWV employers are in desperate need of employees with the cyber security and information technology skills. Between two of the employers (NAWC and Jacobs Technology) there is a need for 100 employees per year. Additionally, other employers are not able to find personnel in this area and positions are going unfilled.</p>
04/15/2016	Cyber Security Technology	<p>CYBER SECURITY TECHNOLOGY Associate of Science degree is designed for students pursuing professional employment in information security for business. This degree program provides students with skills to enter the job market as information assurance technicians, information security analysts, network security professionals and cyber security technicians. Designed for both full-time and part-time students, this program is appropriate to both those currently employed and those seeking to enter the field. This degree program is also transferable to California State University at San Bernardino.</p> <p>Courses required for the Associate degree major at Cerro Coso Community College may not be the same as those required for the corresponding major at a four-year school. Consult a counselor and visit <a href="http://www.assist.org">www.assist.org</a> to identify the courses needed for the major at your transfer school and to develop a plan that will best meet your goals.</p> <p>You must complete a minimum of 60 units, including the courses listed in the major and general education requirements, with an overall GPA of 2.0 or better, and a grade of "A," "B," "C," or "P" in all courses for the major. A minimum of 12 units must be completed at Cerro Coso Community College. Your transfer institution may require some of the major courses to be taken for a grade. Please consult a counselor and <a href="http://www.assist.org">www.assist.org</a> to determine any limitations on Pass/No pass grading in major preparation courses.</p>	<p>Cyber Security professionals are in critical demand to protect our individual security, business security and international security.
