Public Content

These distance education and correspondence education revisions were reviewed and recommended for approval by the Cerro Coso Community College Curriculum Committee, Chief Instructional Officer, and College President according to the established local process.

Given the nature of the coronavirus pandemic and rather than submit the courses one by one through the eLumen curriculum management system, the curriculum committee made a collective approval of these courses, according to the established local process, to be offered in distance education and correspondence education ONLY in instances of a declared county, state, or national emergency. This designation is an official option as a delivery mode in the course outline of record (distance education and/or correspondence education in a declared emergency only), and upon approval by the governing board these options will be recorded in the appropriate course outlines of record.
