

INTEGRATED PLANNING

At Cerro Coso Community College, the mission and other guiding principles direct resource allocation, innovation, and continuous quality improvement through ongoing systematic planning and evaluation of programs and services. The primary vehicle for this planning is the annual integrated planning cycle.

Planning Documents

Serving students better requires ongoing institutional evaluation and improvement. At Cerro Coso, sustainable continuous quality improvement is achieved through a systematic cycle of evaluation, integrated planning, implementation, and re-evaluation. The planning cycle informs college decisions about where to place priorities, adjust strategies, and distribute resources. This results in a number of planning documents written at a variety of institutional levels.
