### Program Locations

Majors and programs are offered at a variety of Cerro Coso Community College campus locations, but not all majors or programs are offered at each site. Every effort is made to offer all courses at the campus location of an advertised program so that students can complete the award in a timely manner. But occasionally it is necessary to offer an online class in place of an advertised onsite class so that students can stay on track for degree or certificate completion. Students should consult with the counselor at the site where they are enrolled when selecting a degree objective or other program of study.
