

The LAC is here to serve you!

Located at each campus and online, the Learning Assistance Center strives to provide high quality academic support to all students. Our services are free to students. Our staff, faculty, and programs are focused on supporting you, the student, in your academic endeavors. Whether you are struggling in a class or just want to perform at a higher level, you can benefit from our services.

Day by day, we get better and better

Learning Support Services

Peer-to-Peer Tutoring

The LAC provides free peer tutoring to Cerro Coso students. Our peer-tutors are trained and meet with students for up to two-hours per week, per class.

Request an appointment with a peer tutor on the LAC Canvas page (QR code below)

Math and Writing Labs

The Math and Writing Labs provide an opportunity for students to work with math and writing faculty and or peer tutors on a drop-in basis (no appointments).

Math & Writing Lab schedules are posted in Canvas (QR code below)

Embedded Tutoring

Select courses will welcome a peer tutor who works directly with students. Should you find yourself in a course section with an embedded tutor, be sure to connect with them often as they will be able to provide learning support for the course.

All embedded tutors have been successful in the course they are embedded in and have most likely been a student in your professor's class.

Computer Labs and Spaces for Study

- The computer lab is open to all, and may be used for course work, printing, research, and online class work. These computers are equipped with the Microsoft Office Suite and specialized software for various courses.

Athletic Study Hall

- Student Athletes are required to attend at least 4 hours of study hall per week (2 with their team and as an individual)
- Student Athletes will check in at the front desk using their student ID number and selecting *Study Hall* on the kiosk.
- This is a great time to make progress in you classes and with your learning - make a plan and execute during this time.

Materials in LAC

- Students are free to use whiteboards for their studies. Whiteboards help groups to visualize concepts and collaborate on course content and assignments.
- Books on shelves may be used within the LAC, but please return them when you are finished (unless otherwise noted).

Peer tutors are recommended by our instructors. Tutors enjoy flexible work hours and receive excellent experience as well as the opportunity to help and learn from their fellow students. If you are interested in becoming a tutor, please reach out to LAC Coordinator, Tyson Huffman.

The Learning Assistance Center is Open!

Welcome to the Learning Assistance Center (LAC), home to Cerro Coso's finest peer tutors and great spaces to study. I am happy to announce that the LAC's tutoring programs open today!

Students may [submit requests for 1-to-1 peer tutoring](#) (one-off appointments as well as recurring, biweekly appointments).

If you are seeking less formal, no-appointment necessary, drop-in sessions, the **Math and Writing Lab** is for you - simply visit our LAC's during the times specified on the [Math and Writing Labs Schedule](#) or click the link associated with the session you plan to attend and begin working with a professor or peer tutor.

If you have a tutor embedded in your courses, don't be shy, they are there to enhance your learning. Plan to attend your **embedded tutor's workshop sessions** and ask questions as you have them. Your embedded tutors were once students in the class you are taking, making them knowledgeable about your professor's assignments, expectations, and the course content.

If we are unable to fulfill your request for a peer tutor, we highly recommend using **STAR-CA**, a state-wide tutoring program that places you with a peer tutor from a California Community College. View the [STAR-CA schedule for Fall 2024](#) (not yet set for the Fall 2024)

If you are still unable to secure a tutor, please check with **NetTutor**. NetTutor provides professional tutors; however, these tutors do not utilize a webcam or microphone, making sessions chatbox based. NetTutor has excellent availability (24 hours in some cases!) for many subject areas and all of their peer tutors hold Bachelor's Degrees or Master's Degrees in their subject area.

If you have any questions about these services or would like to discuss your options, please connect with Tyson Huffman (tyson.huffman@cerrococo.edu) or leave a message at <https://bit.ly/THuffmanBox>

Have a fantastic semester, Coyotes!
