Pre-requisites, Co-requisites, Anti-requisites and Advisories

Advisory

LIBRC100 - Introduction to Library Research and Bibliography

Students would benefit from understanding the fundamentals of research, including the applying the research process, evaluating sources, and using electronic catalogs. Students would build upon this foundation as they use electronic catalogs to research and identify primary and secondary sources in a law library.

AND

Advisory

ENGLC101 - Freshman Composition

Students need to be able to comprehend college textbook content, communicate effectively in writing with minimal grammatical and spelling errors, and write a research paper. The advisory requisite course provides students with the ability to analyze college reading material and write clearly structured essays.

Delivery Methods and Distance Education

Delivery Method: Please list all that apply -Face to face -Online (purely online no face-to-face contact) -Online with some required face-to-face meetings ("Hybrid") -Online course with on ground testing -iTV – Interactive video = Face to face course with significant required activities in a distance modality -Other

Face 2 Face
Online
Hybrid
Interactive

Rigor Statement: Assignments and evaluations should be of the same rigor as those used in the on-ground course. If they are not the same as those noted in the COR on the Methods of Evaluation and out-of-class assignments pages, indicate what the differences are and why they are being used. For instance, if labs, field trips, or site visits are required in the face to face section of this course, how will these requirements be met with the same rigor in the Distance Education section?

This class is taught online and on ground. All paper assignment are identical to those in an onsite class except that they are submitted by "submission box" within the Learning Management System (LMS). Weekly class discussions are conducted by means of online weekly discussion forums within the LMS. Quizzes and Exams will also be uploaded to the LMS and the student will take the quiz/exam through the LMS platform, however, content will be identical to any on-site courses. The instructor is responsible for providing feedback to the discussion within the discussions each week and also through grading feedback. Some instructors use rubrics, which are also stated in the syllabus, to grade course work and discussion forums but rubrics are not required and the need will vary by assignment. Objective answers would not require a rubric. Outcomes are assessed. See Methods of Evaluation.

Effective Student-Instructor Contact: Good practice requires both asynchronous and synchronous contact for effective contact. List the methods expected of all instructors teaching the course. -Learning Management System -Discussion Forums -Moodle Message -Other Contact -Chat/Instant Messaging -E-mail -Face-to-face meeting(s) -Newsgroup/Discussion Board -Proctored Exam -Telephone -iTV -Interactive Video -Other (specify)

Faculty maintains regular and effective contact with students online through participation in discussion board forums, course announcements, annotated feedback comments on graded assignments, office hours, and responding to student inquiries via email, "ask the instructor" forum, phone, or Zoom video conferencing.

Students have regular contact with each other through the required weekly discussion boards. The students are required to post an initial response each week and reply to a minimum of two of their classmates. Students can also communicate with each other through email or Learning Management System Inbox.

Software and Equipment: What additional software or hardware, if any, is required for this course purely because of its delivery mode? How is technical support to be provided?

Any needed software can be downloaded for free such as Microsoft office through student account or Adobe Acrobat free version. Students can contact campus IT, instructor or company for assistance.

Accessibility: Section 508 of the Rehabilitation Act requires access to the Federal government's electronic and information technology. The law covers all types of electronic and information technology in the Federal sector and is not limited to assistive technologies used by people with disabilities. It applies to all Federal agencies when they develop, procure, maintain, or use such technology. Federal agencies must ensure that this technology is accessible to employees and the public to the extent it does not pose an "undue

burden". I am using -iTV—Interactive Video only -Learning management system -Publisher course with learning management system interface.

An accessibility check is run within the learning management system. Documents that are uploaded are checked for accessibility.

Class Size: Good practice is that section size should be no greater in distance ed modes than in regular face-to-face versions of the course. Will the recommended section size be lower than in on-ground sections? If so, explain why.

Online class size will not be lower than on-ground classes.
